

# TATTOO AFTERCARE

YOUR TATTOO IS A WOUND AND MUST BE TREATED ACCORDINGLY. THE BETTER YOUR HEALTH,  
THE BETTER YOUR TATTOO WILL HEAL.

## DAY ONE

SECOND SKIN DRESSING SHOULD BE LEFT ON FOR AT LEAST THE FIRST NIGHT OR AS LONG AS IS COMFORTABLE, BUT NO LONGER THAN A WEEK. SOME FLUID BUILD UP IS NORMAL, HOWEVER IN CASES OF EXCESSIVE FLUID IT IS USUALLY POSSIBLE TO MASSAGE THIS OUT TOWARD THE NEAREST EDGE.

ALTERNATIVELY YOU CAN DRAIN WITH A CLEAN PIN, AS YOU WOULD A BLISTER.

IF THE SECOND SKIN BECOMES UNSTUCK, REMOVE AND FOLLOW THE CLINGFILM PROCEDURE

CLINGFILM SHOULD BE REMOVED AS SOON AS YOU GET TO CLEAN WASHING FACILITIES, DUE TO THE FACT IT ISN'T BREATHABLE

ICE ICE BABY!!!THIS IS A GREAT HELP, ESPECIALLY FOR ANY AREAS PRONE TO BRUISING OR SWELLING

EXERCISE AND FRICTION CAN CAUSE IRRITATION AND EXCESSIVE SWELLING. TRY AND AVOID WHERE POSSIBLE, INITIALLY

## DAYS TWO - FOUR

REMOVE THE DRESSING GENTLY. SECOND SKIN IS BEST REMOVED IN THE SHOWER BY STRETCHING FROM A CORNER ALONG THE SURFACE OF YOUR SKIN. PULL DOWN, DON'T PEEL

USE A MILD SOAP AND WARM WATER TO GENTLY WASH AWAY ALL BLOOD MATTER AND INK RESIDUE

PAT DRY WITH A CLEAN TOWEL, ENSURE ANY CLOTHING THAT WILL COME IN CONTACT IS CLEAN

START USING A SUITABLE LOTION, LIGHTLY 2-4 TIMES DAILY. APPLY WITH CLEAN HANDS

## DAYS THREE - FOURTEEN

THE SCABBING PERIOD

SHOWER AS NORMAL - AVOID SOAKING. DO NOT PICK, SCRATCH, LICK OR ABUSE YOUR TATTOO. DO NOT EXPOSE TO SUNLIGHT - AVOID SUNBLOCK. NO SWIMMING IN THE OCEAN, POOLS OR BATHS

## WEEKS TWO - FOUR

THE FRESH INK UNDER THE NEW SKIN WILL CAUSE YOUR TATTOO TO APPEAR SLIGHTLY LIGHTER FOR A WEEK OR TWO. SWITCH TO USING A STANDARD MOISTURIZER. CONTINUE TO AVOID SUNLIGHT - IT IS NOW OK TO USE SUNBLOCK.

## WEEKS FOUR - FOREVER

SUNBLOCK, MOISTURIZE, STAY HEALTHY AND LOVE YOUR TATTOO

KEEP YOUR TATTOO COMPANY BY GETTING MORE TATTOOS
